The Sacred Knowledge of the Desert Zulumathabo Zulu,2019-01-05 The African desert flower Mponeng is optimised to enhance her survival experience regardless of the magnitude of adverse conditions in the terrestrial space that continuously poses an impressive threat to her survival experience. This time-tested mystical strategy holds great promise for humanity with respect to the need to upgrade our coping and transcending skills and resources to enhance our survival experience so that we remain undefined by the adverse conditions.

The Bible and the Third World R. S. Sugirtharajah,2001-06-11 A comprehensive history of the Bible in the Third World.

Themes in African Church History. Missionary Motives, Merits and Mistakes Thorsten Prill,Anthony Brendell,2019-10-25 Document from the year 2019 in the subject Theology - Historic Theology, Ecclesiastical History, Namibia Evangelical Theological Seminary, language: English, abstract: The Protestant missionary movements have for some time come under severe criticism. Writing from a Namibian perspective, Brendell and Prill demonstrate that the overall picture painted by the critics is often harsh. Most Protestant missionaries were driven by compassion for people who needed to hear the Christian Gospel. Of course, that does not mean that they were faultless. Their zeal for the mission of the Church did not prevent missionaries from making serious mistakes. One of these mistakes was the practice of paternalism, as the example of the Rhenish Missionary Society shows.

Music Notation Christine Lucia,2011 This guide presents a new and uniquely South African approach to learning about staff notation - especially for musicians who are educated in the tonic solfa system. Readers will build an understanding of

each aspect of notation by experiencing it as music. Tonic solfa is used in the earlier chapters to help relate the sounds to the concepts. The book is designed for mature music students and adult learners whose first language may not be English. However, it will be useful to students of music from any sector of society, whether they are enrolled in a formal course or simply want to find out more on their own. Each chapter is devoted to particular aspects of notation and most chapters are built around a piece of music generally familiar to South Africans. Because South Africa has a strong vocal and choral culture, examples are often drawn from the choral repertory. The book and CD include many examples of South African music, as well as samplings of classical Western music and jazz. The CD also offers music clips played on a keyboard, illustrating some of the examples of notation given in the book. Examples and exercises are drawn from this rich representation, and, by means of self-tests, readers will steadily become confident in reading and writing music in staff notation. They will also build up a strong knowledge of how music works by seeing the structures of a wide range of music from diverse cultures in South Africa.

One Half from the East Nadia Hashimi, 2016-09-06 Perfect for fans of Rita Williams-Garcia, Thanhha Lai, and Rebecca Stead, internationally bestselling author Nadia Hashimi's first novel for young readers is a coming-of-age journey set in modern-day Afghanistan that explores life as a bacha posh—a preteen girl dressed as a boy. Obayda's family is in need of some good fortune, and her aunt has an idea to bring the family luck—dress Obayda, the youngest of four sisters, as a boy, a bacha posh. Life in this in-between place is confusing, but once Obayda meets another bacha posh, everything changes. Their transformation won't last forever, though—unless the two best friends can figure out a way to make it stick and make their newfound freedoms endure. Nadia Hashimi's first novel for adults, *The Pearl That Broke Its Shell*, was a bestseller that shares a bacha posh character with *One Half from the East*.

Unsettling Whiteness Lucy Michael,Samantha Schulz,2019-01-04 This book examines definitions and the complex artistic, intimate and institutional means by which whiteness continues to be both resisted and reproduced.

Chaka Thomas Mofolo,2013-05-21 Chaka is a genuine masterpiece that represents one of the earliest major contributions of black Africa to the corpus of modern world literature. Mofolos fictionalized life-story account of Chaka (Shaka), translated from Sesotho by D. P. Kunene, begins with the future Zulu kings birth followed by the unwarranted taunts and abuse he receives during childhood and adolescence. The author manipulates events leading to Chakas status of great Zulu warrior, conqueror, and king to emphasize classic tragedys psychological themes of ambition and power, cruelty, and ultimate ruin. Mofolos clever nods to the supernatural add symbolic value. Kunenes fine translation renders the dramatic and tragic tensions in Mofolos tale palpable as the richness of the authors own culture is revealed. A substantial introduction by the translator provides valuable context for modern readers.

Losing Earth Nathaniel Rich,2020-03-05 By 1979, we knew all that we know now about the science of climate change - what was happening, why it was happening, and how to stop it. Over the next ten years, we had the very real opportunity to stop it. Obviously, we failed.Nathaniel Rich's groundbreaking account of that failure - and how tantalizingly close we came to signing binding treaties that would have saved us all before the fossil fuels industry and politicians committed to anti-

scientific denialism - is already a journalistic blockbuster, a full issue of the New York Times Magazine that has earned favorable comparisons to Rachel Carson's *Silent Spring* and John Hersey's *Hiroshima*. Rich has become an instant, in-demand expert and speaker. A major movie deal is already in place. It is the story, perhaps, that can shift the conversation. In the book *Losing Earth*, Rich is able to provide more of the context for what did - and didn't - happen in the 1980s and, more important, is able to carry the story fully into the present day and wrestle with what those past failures mean for us in 2019. It is not just an agonizing revelation of historical missed opportunities, but a clear-eyed and eloquent assessment of how we got to now, and what we can and must do before it's truly too late.

The World of South African Music Christine Lucia, 2009-03-26 The present Reader is a selection of texts on South African music which are chosen not only for their importance or the frequency of citations, but with the express purpose of providing the reader with a deep understanding of the music itself. Consequently, there are readings that are chosen because they have been influential, but there are also many which, though published, have not enjoyed very wide circulation. There are those which are of obvious historic interest, and others which speak to contemporary issues. Among other things, the volume provides an excellent sense of the varying ideologies and approaches that determine the relationship between author and subject. The reader is indispensable to scholars and enthusiasts of South African music and it is of great interest to ethnomusicologists more generally. It is also an excellent resource for those who do not have immediate access to harder-to-find articles, and is perhaps most vital to those who are looking to find a way into the world of South African music.

Black Christians and White Missionaries Richard Gray, 2005-07-01 In this book, one of the world's leading scholars on the history of religion in Africa shows how Christianity has been transformed as it has been adopted by black Africans, from the introduction of Christianity in the seventeenth century to the present. Richard Gray finds that Africans have not meekly accepted monolithic Western practices and interpretations but have appropriated Christian faith for specific needs and added to it insights of their own. Gray's theological conclusions are fascinating, and the book forms a useful contribution to the study of missions in Africa.-Eugeniah Adoyo, *Theological Book Review* Gray's most significant contribution is his essay that compares differing concepts of evil in the cosmologies of Christianity and traditional African religions. This compact, well-written volume has extensive footnotes. It is recommended for specialists, graduate students, and advanced undergraduates.-Choice A thoughtful and informative book, well worth reading.-Joseph C. McKenna, *Theological Studies* Concrete and detailed cases support Gray's lucid account of this transformation in Africa.-Wyatt MacGaffey, *American Historical Review* The work of a master historian and demonstrates archival detective work and scholarly analysis at its finest. Anyone interested in the introduction and development of Christianity in Africa will find this book particularly

valuable.-Roger B. Beck, *History: Reviews of New Books Christianity in Africa* has too often been written about by those who recognize only its sociological consequences. Gray . . . writes . . . with insights that are not found often enough in studies of black Christians and white (and black) missionaries in Africa, and this is welcome.-M. Louise Pirouet, *International Journal of the African Historical Society*

Postcolonial Perspectives in African Biblical Interpretations Musa W. Dube, Andrew M. Mbuvi, Dora R. Mbuwayesango, 2024-01-30 This volume foregrounds biblical interpretation within the African history of colonial contact, from North Atlantic slavery to the current era of globalization. It reads of the prolonged struggle for justice and of hybrid identities from multifaceted contexts, where the Bible co-exists with African Indigenous Religions, Islam, and other religions. Showcasing the dynamic and creative approaches of an emerging and thriving community of biblical scholarship from the African continent and African diaspora, the volume critically examines the interaction of biblical texts with African people and their cultures within a postcolonial framework. While employing feminist/womanist, postcolonial, Afrocentric, social engagement, creative writing, reconstruction, and HIV/AIDS perspectives, the authors all engage with empire in their own ways: in specific times, forms, and geography. This volume is an important addition to postcolonial and empires studies in biblical scholarship. The contributors are David Tuesday Adamo, Lynn Darden, H. J. M. (Hans) van Deventer, Musa W. Dube, John D. K. Ekem, Ernest M. Ezeogu, Elelwani B. Farisani, Sylvester A. Johnson, Emmanuel Katongole, Malebogo Kgalemang, Temba L. J. Mafico, Madipoane Masenya (ngwan'a Mphahlele), Andrew M. Mbuvi, Sarojini Nadar, Elivered Nasambu-Mulongo, Jeremy Punt, Gerrie Snyman, Lovemore Togarasei, Sam Tshehla, Robert Wafawanaka, Robert Wafula, Gerald West, Alice Y. Yafeh-Deigh, and Gosnell L. Yorke.

Postcolonial Feminist Interpretation of the Bible Musa W. Dube Shomanah, Musa Dube, 2012-11 Noting that the ways of interpreting the Bible now practiced in the West are patriarchal and oppressive of those in other parts of the world, Dube offers an alternative interpretation that attends to and respects needs of women in the two-thirds world. In a provocative and insightful reading of the book of Matthew, she shows us how to read the Bible as decolonizing rather than imperialist literature.

Es'kia Es'kia Mphahlele, 2002 The essays and public addresses of scholar, teacher, philosopher, and activist Es'kia Mphahlele are presented in this collection spanning 40 years of recent African history. The intellectual and distinctly South African perspective exhibited in these writings is enriched by humor and autobiographical anecdotes. Subjects addressed include African literature and literary criticism, education in a democratic South Africa, relations between Africans and African Americans, negritude, African identity, and African humanism. A critical introduction, full biography, bibliography, and brief synopsis of each essay are included.
