**Mitsubishi Lancer Evo** Brian Long,2014-04-03 The Lancer name conjures up many different images. For some, it evokes memories of the first generation cars, introduced in 1973, which fought with the best on the Safari Rally and came out the victors. Others will remember the second generation models especially the turbocharged versions, the original Mitsubishi wolf in sheep s clothing and who could not be aware of the Evolution (Evo) series, launched in 1992? Forged in the fierce heat of WRC competition and honed by years of continuous development, the Lancer Evolution is not only one of the greatest rally cars of all time, it is also a desirable high-performance road car, too. Written in Japan with the full cooperation of Mitsubishi and key staff members, this is the definitive international story of all the world s Lancers, whether they carried Mitsubishi, Dodge, Colt, Plymouth, Valiant, Eagle, Proton or Hyundai badges, with special emphasis on the Evolution models.

**Acting Daft** Amanda MacLachlanpeglerpegler,2011-06-01 DescriptionHenry and Winston are twins. They develop a secret language between themselves which leads to them being misdiagnosed as having learning difficulties. They soon discover that this diagnosis helps them get away with more than their long suffering brother and sister. However as they get older they start to realise that acting daft is not as brilliant as they first thought. Is it too late to come out of the closet so to speak? About the Author Amanda has suffered from schizophrenia as long as she can remember. However she remained undiagnosed for years and got through school and nurse training to become a learning disabilities nurse as it is now called. When she was twenty six someone spiked her drink in a pub which led to her capture by the psychiatric dept. Now thanks to their treatment she is on long term sick leave and probably will stay there for the rest of her life. Having experienced both sides of the psychiatric fence most of her fictional writing is concerned with some type of mental health problem.

**The Making of Modern Colombia** David Bushnell,1993-02-09 Colombia's status as the fourth largest nation in Latin America and third most populous—as well as its largest exporter of such disparate commodities as emeralds, books, processed cocaine, and cut flowers—makes this, the first history of Colombia written in English, a much-needed book. It tells the remarkable story of a country that has consistently defied modern Latin American stereotypes—a country where military dictators are virtually unknown, where the political left is congenitally weak, and where urbanization and industrialization have spawned no lasting populist movement. There is more to Colombia than the drug trafficking and violence that have recently gripped the world's attention. In the face of both cocaine wars and guerrilla conflict, the country has maintained steady economic growth as well as a relatively open and democratic government based on a two-party system. It has also produced an impressive body of art and literature. David Bushnell traces the process of state-building in Colombia from the struggle for independence, territorial consolidation, and reform in the nineteenth century to economic development and social and political democratization in the twentieth. He also sheds light on the modern history of Latin America as a whole.
