*Alfa Romeo Montreal* Bruce Taylor,2008-07-15 The Montreal is one of the most exotic series production cars ever manufactured by Alfa Romeo. The combination of a race-bred 200bhp V8 engine with stylish Bertone coachwork puts it in a class of its own. It is a car that can be immensely enjoyable to drive and which turns heads wherever it appears. Sound Montreals are readily available today at very affordable prices. But up to now, there has been a scarcity of detailed technical information to help owners of this unique vehicle. This is the first English-language book dedicated solely to the Alfa Romeo Montreal. It is a comprehensive reference about buying, maintaining and improving the car and contains a wealth of technical information and practical tips for owners and potential owners.

*Alfa Romeo Giulia GT Coupé* Keith Booker,2018-09-18 This book's step-by-step expert guidance will help you discover all you need to know about the Alfa Romeo Giulia you want to buy. Its unique point system will help you to place the cars value in relation to condition. This is an important investment - don't buy a car without this handy guide - it will help you to find the best car for your money.

Alfa Romeo Giulia Coupe GT and GTA John Tipler,2003-05 Here is a fact and picture-packed book dedicated solely to the Giulia GT in all its forms including the fabulous lightweight GTA racer. Now an updated, large format third edition which includes over 100 new images.

*Lancia Loraymo* Brandes Elitch,2016-12-14 A limited-edition book about cars designed by Raymond Loewy. Book focuses on his design of a one-off Lancia called the Loramyto that he had built for himself. It then follows an intriguing trail of how it changed hands, then disappeared for a time only to be reappear in a junkyard twenty years later. The wrecked car was later

gifted to Lancia in Italy by the US Lancia Club for their collection in Turin Italy. Today it is fully restored. A fascinating tale about American car design since 1930!

*Alfa Romeo 916 GTV and Spider* Robert Foskett,2013-03-01 Alfa Romeo 916 GTV and Spider traces the complete story of the Alfa Romeo GTV and Spider models produced between 1994 - 2005, commonly known to enthusiasts by the manufacturer's project code as the 916 series. The 916 models would always be controversial - they replaced the iconic Spider, the best-selling Alfa Romeo sports model of all time, and the brand-establishing Alfetta GTV. Sharing components and a platform with a humble Fiat hatchback, would the cars ever be considered 'real' Alfa Romeos? The cars were critically acclaimed, and, though they faced tough competition in the late 1990s from the likes of the Audi TT, they remained in production for over a decade. Topics covered include: Full history of the 916 series GTV and Spider models; Design, development and evolution of the models from 1994 - 2005; Participation of the GTV in motorsport; Model variations in depth through all three facelifts; Previously unpublished production figures, and chassis numbers for the desirable, limited-edition GTV Cup model. Comprehensively researched guide to the entire lifespan of the 916 series. Will appeal to Alfa Romeo and automotive enthusiasts. The history and design process are examined along with an in-depth guide to each of the model variants produced. The cars' current position in the classic car market is considered. Superbly illustrated with 240 colour photographs. Robert Foskett is a life-long Italian car enthusiast with a special interest in Alfa Romeo.

Alfa Romeo Production Cars from 1910 Maurizio Tabucchi, Stefano d'Amico, 2008-02-15 Revised and updated to 2007, "Alfa Romeo - Production Cars" was first published in 1996, written by two experts: Stefano d'Amico (President of RIAR, the Alfa Romeo Italian Register) and Maurizio Tabucchi (consultant at both RIAR and ASI, the Italian Vintage Automobile Association). This fascinating story of Alfa Romeo's cars is told model by model by a text that results from precise reconstruction of the facts, enriched with detailed technical specifications (chassis numbering included) and rare archive illustrative material. All of Alfa's recent production can also be found in the book, starting with the 155, the last car in the previous edition, the following 156, 145, 146, 147, 166, 159, up to the last "Brera" and "Spider"; A long-awaited new edition that no Alfa Romeo fan should miss. Written in English and Italian.

*Lamborghini Miura Bible* Joe Sackey, 2016-01-06 The FIRST book on the Lamborghini Miura to be published in the past twenty six years - and enthusiasts agree it is long overdue. Written by a world-renowned authority on the subject, featuring, among other things, a never-before-published factory chassis production register, technical illustrations, studio-supplied images and exclusive interviews with the designers of the car: this is essential reading for any Lamborghini fan.

Superfinds Michael Kliebenstein, 2020-09 This book is unique. It is a compendium of wonderful automotive treasure, as discovered. With the passage of time all cars became worthless and unloved, no matter how eminent. Racing cars inevitably became uncompetitive and redundant. Many vehicles passed into scrapyards, the motoring equivalent of a cemetery, or

simply rotted away.

Alfa Romeo Giulia Pat Braden, Jim Weber, 1991

**Forward Drive** Jim Motavalli, 2014-10-14 This comprehensive account of the past, present and future of the automobile examines the key trends, key technologies and key players involved in the race to develop clean, environmentally friendly vehicles that are affordable and that do not compromise on safety or design. Undertaking a rigorous interrogation of our global dependency on oil, the author demonstrates just how unwise and unnecessary this is in light of current developments such as the fuel cell revolution and the increasing viability of hybrid cars, which use both petrol and electricity - innovations that could signal a new era of clean, sustainable energy. The arguments put forward draw on support from an eclectic range of sources - including industry insiders, scientists, economists and environmentalists - to make for an enlightening read.

*The Bertone Collection* Gautam Sen, Michael Robinson, 2018-02

GT - The world's best GT cars 1953-1973 Sam Dawson, 2014-08-18 Since the arrival of the Lancia Aurelia B20 Grand Tourer (GT) in 1953, GTs have been the ultimate in luxury performance cars. This book, the first in a series of three, tells the stories behind some of the most glamorous and alluring vehicles of the fifties, sixties and seventies - the Grand Tourers. Since the arrival of the Lancia Aurelia B20 GT in 1953, manufacturers have competed - with both popular culture and each other - to find that perfect balance of luxury, accommodation, and sporting ability. With nearly 150 pictures and written from a social as well as technical perspective, this is a fascinating book with a choice of cars that will cause many heated arguments amongst motoring enthusiasts!

*Pininfarina 90 anni. Ediz. italiana e inglese* Giorgio Nada Editore Srl, 2020 On the occasion of the 90th anniversary of Pininfarina, a marque synonymous with style and elegance applied to car design, Pininfarina is a book that surveys, for the first time, the entire output of the Turin coachbuilder, model by model. Produced in close collaboration with the company, it draws on invaluable photographic material accompanying brief contextualising texts. Tracing the history of Pininfarina from its origins to the present day entails reviewing some of the most iconic models in automotive history: from the numerous Ferraris bodied by the historic partner of the Maranello firm to cars such as the Cisitalia 202, the Lancia Aurelia, the Alfa Romeo Duetto and 164, the Maserati GranTurismo through to the current models born under the aegis of the Indian firm Mahindra. The book also covers the numerous Pininfarina concept cars that have written glorious pages in the history of design, raising the bar every time in terms of the excellence of the car product.

**Marcello Gandini: Maestro of Design** GAUTAM. SEN, 2024-11-19 A thorough look at the pioneering work of a world-renowned designer of supercars. Today, Marcello Gandini's global status as one of the most exceptional automobile designers in history is undisputed. He has wielded significant influence on automobile design throughout the latter half of the twentieth century, and his impact endures well into the twenty-first. From iconic vehicles such as the Lamborghini Miura to the

Maserati Quattroporte IV, the unassuming Audi 50/VW Polo to the remarkable Cizeta V16T, Gandini has crafted some of the most pivotal machines in automotive history. With hundreds of never-before-seen images and drawings, this book encapsulates Gandini's most significant cars alongside some of his lesser-known gems and presents them to readers in an engaging, accessible format.

Bertone Luciano Greggio,2020-05-12 For almost a century, Carrozzeria Bertone has created some of the most sensational models in automotive history. The extraordinary concept cars such as the B.A.T.Mobiles, the Testudo, the Canguro, the Carabo and the futuristic Stratos - to mention but a few - were joined by iconic sports cars, such as the numerous Lamborghini Miuras, Marzals, Espadas and Countachs and the Alfa Romeo Montreal, as well as more “down-to-earth” cars that went into mass production. This last category features the Alfa Romeo Giulietta Sprint, the Fiat X1/9 and the Nuova Mini Innocenti along with the many Citroëns designed between the late 1980s and early 2000s. These are just a few of the models featured in the extensive and varied Bertone catalogue to which great designers of the calibre of Giorgetto Giugiaro and Marcello Gandini have contributed. In-depth historical contextualization by Luciano Greggio, a great connoisseur of the Bertone marque, and a magnificent collection of photographs make up this latest volume in the series Masterpieces of Style.

*Alfa Romeo 105 Series Spider* Jim Talbott,Andrew Brown,2019-10-21 The Alfa Romeo 105 series Spider is one of the most admired drop-head sports cars to come out of Italy. Launched in 1966, its radical new look was not immediately welcomed. As prospective buyers gradually warmed to the model, enhancements were introduced including more powerful engines and higher-spec body and interior fittings. Despite its inauspicious start, production of this much-admired car lasted for twenty-seven years, finally stopping in 1993. Jim Talbott and Andrew Brown pay homage to the 105/115 series Alfa Spider. With over 330 photographs, many specially commissioned, this new book describes the Alfa Romeo company history including its philosophy of incorporating driver appeal into all of its products, resulting in some of the most desirable vehicles of their age; it details the evolution of the 105/115 series through four distinct body styles; lists the technical design specifications and every major version of the Spider and finally, discusses the issues and challenges of finding and owning a classic Spider.

*Design Between the Lines* Patrick Le Quément,2019-08-28 The car industry and the way in which cars are created have changed beyond all recognition over the last half-century. Automotive styling was once the grudging afterthought when the engineers had finished their work. Now, following a short flirtation with exotic Italian design houses, it has evolved into sophisticated design carried out by multitalented in-house teams honing carefully crafted brand identities. One of the visionary designers at the forefront of that revolution has been Patrick le Quément. Most widely acclaimed for his 22 years in charge of Renault Design, resulting in such standout models as the Twingo, Scénic and Avantime, le Quément has enjoyed a 50-year career that has also taken in Simca, Ford and Volkswagen-Audi. In his foreword to the book, Stephen Bayley calls le Quément 'perhaps the very most original designer working in the conservative car business at the turn of the millennium'.

Some 60 million cars across the world now bear the unmistakable stamp of le Quément. Design: Between the Lines is not a straightforward autobiography; rather, le Quément charts his journey through five decades of thoughts, actions, failures and successes. He offers fascinating commentaries on design and the creative process, and on some of the extraordinary automotive brands that make up our shared cultural heritage. As Bayley notes, for le Quément, design is 'as much a matter of thinking as a matter of drawing'. On a broader, more philosophical level, le Quément also shares his views about life in general and that remarkable contraption called 'the automobile', which has so influenced the lives of millions of people the world over from the late 1800s to the present day. Presented as a series of 50 brief essays or 'perspectives', le Quément's thoughtful and astute observations from the street, from the design studio and from his seat in the boardroom give the reader a penetrating and often amusing insight into the high-level workings of a global industry, its triumphs and tragedies, and the foibles of the decision-makers responsible for running it. A lively complementary text by the automotive journalist Stéphane Geffray accompanies each of le Quément's perspectives, and illustrations are provided by the automobile designer Gernot Bracht. Design: Between the Lines will appeal to all motoring fans and enthusiasts of good design. As Chris Bangle, the former Director of BMW Design, remarks: 'Few car designers have had a career so filled with innovative successes that they have inspired a whole industry; fewer still have the skills to share it. Engaging and revealing, Patrick relates his personal experience and deep knowledge of car design in a very enjoyable manner.'

**Alfa Romeo TZ-TZ2** Vitto Witting da Prato, 2017-02-01 Having left motor racing in the early 1950s - at least officially - Alfa Romeo returned to the sport once again at the start of the following decade due to the commitment and enthusiasm of Autodelta. This Alfa offshoot distinguished itself by preparing and racing about 30 of the manufacturer's different cars that really did make history. Among them, the Giulia TZ holds a place at the head of the crowd. It had a 1.5-litre, 113 hp engine from the Giulia SS, front and rear suspension of modern conception, disc brakes and an especially bold body shaped by Zagato on a modern tubular chassis. Those were the strong points of this car, which scored results of absolute prestige in its brief career at Sebring, in the Targa Florio, the 24 Hours of Le Mans and the Tour de France. Vito Witting da Prato, already the author of a meticulously written book on the Alfa Romeo SZ, covers the winning, human, technical and sporting factors of this unforgettable car in a monumental work. A book which, to the precise text and painstaking historical reconstruction, has been added illustrations of previously unpublished pictures and technical designs by Autodelta.
