**Language Use in the Two-Way Classroom** Renée DePalma, 2010-08-05 Based on an extended ethnographic study of a dual language (Spanish-English) Kindergarten, this book takes a critical look at children's linguistic (and non-linguistic) interactions and the ways that teaching design can help or hinder language development. With a focus on official "Spanish time", it explores the particular challenges of supporting the minority language use as well as the teacher's strategies for doing so. In bilingual classrooms, teachers' goals include bilingualism as well as academic achievement for all. The children may share these interests, but have their own agendas as well. This book explores the linguistic and social interactions that may help, or hinder, these multiple and sometimes conflicting agendas. How can teachers design educational practice that takes into consideration broader forces of language hegemony as well as children's immediate interests?

*First Language Use in Second and Foreign Language Learning* Miles Turnbull, Jennifer Dailey-O'Cain, 2009-08-24 This volume offers fresh perspectives on a controversial issue in applied linguistics and language teaching by focusing on the use of the first language in communicative or immersion-type classrooms. It includes new work by both new and established scholars in educational scholarship, second language acquisition, and sociolinguistics, as well as in a variety of languages, countries, and educational contexts. Through its focus at the intersection of theory, practice, curriculum and policy, the book demands a reconceptualization of code-switching as something that both proficient and aspiring bilinguals do naturally, and as a practice that is inherently linked with bilingual code-switching.
