**Reading the Qur'an in the Twenty-First Century** Abdullah Saeed,2013-12-04 Reading the Qur'an in the Twenty-First Century considers the development of Qur'anic interpretation and highlights modern debates around new approaches to interpretation. It explores how Muslims from various theological, legal, socio-political and philosophical backgrounds think about the meaning and relevance of the Qur'an, and how their ideas apply in the contemporary world. The book: reflects on one of the most dominant approaches to interpretation in the pre-modern period, textualism, and the reaction to that in Muslim feminist readings of the Qur'an today. covers issues such as identifying the hierarchical nature of Qur'anic values, the criteria for the use of hadith in interpretation, fluidity of meaning and ways of ensuring a degree of stability in interpretation. examines key Qur'anic passages and compares pre-modern and modern interpretations to show the evolving nature of interpretation. Examples discussed include: the authority of men over women, the death of Jesus, shura and democracy, and riba and interest. Abdullah Saeed provides a practical guide for interpretation and presents the principal ideas of a contextualist approach, which situates the original message of the Qur'an in its wider social, political, cultural, economic and intellectual context. He advocates a more flexible method of interpretation that gives due recognition to earlier interpretations of the Qur'an while also being aware of changing conditions and the need to approach the Qur'an afresh today.

*The Islamic Financial System* Sami Tamer,2005 This study deals with the Islamic financial system and investigates the financial instruments utilized in it. Apart from the problems related to the prohibition of interest, the suggested concept for the Islamic financial system could not be applied in practice. Profit and Loss-Sharing instruments have been utilized on a small scale so far and it would be very difficult to increase the attractiveness of these financial instruments without easing Islamic legal restrictions or at least reconsidering relevant issues from both, the Islamic socio-economic and ethical viewpoint, as well as the position of conventional finance. An improvement of efficiency may not be possible without taking a fresh look at Islamic injunctions while considering at the same time contemporary financial realities and needs such as investment opportunities, risk diversification and regulatory issues.

**Ibn 'Arabî - Time and Cosmology** Mohamed Haj Yousef,2014-04-04 This book is the first comprehensive attempt to explain Ibn 'Arabî's distinctive view of time and its role in the process of creating the cosmos and its relation with the Creator. By comparing this original view with modern theories of physics and cosmology, Mohamed Haj Yousef constructs a new cosmological model that may deepen and extend our understanding of the world, while potentially solving some of the drawbacks in the current models such as the historical Zeno's paradoxes of motion and the recent Einstein-Podolsky-Rosen

paradox (EPR) that underlines the discrepancies between Quantum Mechanics and Relativity.

*Spiritual Intelligence* Danah Zohar,2012-04-12 At the beginning of the twentieth century psychologists discovered ways and means to measure intelligence that developed into an obsession with IQ. In the mid 1990's, Daniel Goleman popularised research into emotional intelligence, EQ, pointing out that EQ is a basic requirement for the appropriate use of IQ. In this century, there is enough collective evidence from psychology, neurology, anthropology and cognitive science to show us that there is a third 'Q', 'SQ' or Spiritual Intelligence. SQ is uniquely human and, the authors argue, the most fundamental intelligence. SQ is what we use to develop our longing and capacity for meaning, vision and value. It allows us to dream and to strive. It underlies the things we believe in, and the role our beliefs and values play in the actions that we take and the way we shape our lives.

Holy Quran Maulana Muhammad Ali,2011-05-02 The Holy Qur'an EBook version English Translation and Commentary - Detailed commentary with extensive references to standard authorities, both classical and modern - Comprehensive introduction deals with Islamic teachings and the collection and arrangement of the Holy Qur'an - Extensive Index Reviews There is no other translation or commentary of the Holy Qur'an in the English Language to compete with Maulvi Muhammad Ali's Masterpiece. -- Al-Haj Hafiz Ghulam Sarwar, translator of the Holy Qur'an To deny the excellence of Maulvi Muhammad Ali's translation, the influence for good it has exercised and its proselytizing utility would be to deny the existence of the light of the sun. -- Maulana Abdul Majid Daryabadi, leader of Orthodox Muslim opinion in India) ...has all the merits of what is desired in a translation. -- The Anjuman Himayat-e-Islam, Lahore, Pakistan ...By far the best text currently available in the English language...incontestably one of the finest interpretations of the sacred scripture of Islam. I have no hesitation whatsoever in recommending this translation to students and others seeking to understand the essence and epitome of the Quranic message. -- Prof. T. Hargery, Director, African Studies, Northeast Missouri State University, Kirksville ...an austere faithful translation in English...based on a close study of commentaries of the Qur' an - the work of my learned name-sake Maulvi Muhammad Ali of Lahore...The translation and the notes...all demonstrate the labour of love and devoted zeal. -- Late Maulana Muhammad Ali Jauhar of The Comrade It is certainly a work of which any scholar might legitimately be proud. -- The Quest, London

Islamic Wealth Management Mohamed Ariff,Shamsher Mohamad,2017-12-29 From an Islamic perspective, although the

ownership of wealth is with God, humans are gifted with wealth to manage it with the objective of benefiting the human society. Such guidance means that wealth management is a process involving the accumulation, generation, purification, preservation and distribution of wealth, all to be conducted carefully in permissible ways. This book is the first to lay out a coherent framework on how wealth management should be conducted in compliance with guiding principles from edicts of a major world religion.

Freedom of Expression in Islam Mohammad Hashim Kamali,1997 Freedom of Expression in Islam is informative not only on the subject of the possibilities of freedom of expression within Islam, but also on the cultural tradition of Islam and its guidelines on social behaviour. Distinguished by its clarity and readability, this book is not only essential reading for anyone interested in Islamic law, in Muslim society or in issues of comparative jurisprudence, but is also an important contribution to the current debate concerning the definition and limits of the principle of free speech. The Postnormal Times Reader Ziauddin Sardar,2019-01-01 IIIT Books-In-Brief Series is a valuable collection of the Institute's key publications written in condensed form to give readers a core understanding of the main contents of the original. Postnormal times are best defined as 'an in-between period where old orthodoxies are dying, new ones have yet to be born, and very few things seem to make sense'. or, as Ezio Mauro puts it: 'we are hanging between the "no longer" and the "not yet" and thus we are necessary unstable -nothing around us is fixed, not even our direction of travel.' The postnormal times theory attempts to make sense of a rapidly changing world, where uncertainty is the dominant theme and ignorance has become a valuable community. The Postnormal Times Reader is a pioneering anthology of writings on the contradictory, complex and chaotic nature of our era. It covers the origins, theory and methods of postnormal times; and examines a host of issues, ranging from climate change, governance, Middle East to religion and science, from the perspective of postnormal times. By mapping some of the key local and global issues of our transitional age, the Reader suggests a way of navigating our turbulent futures.

Economic Concepts of Ibn Taimiyah Abdul Azim Islahi,2015-07-01 This valuable work presents Ibn Taimiyah's thoughts on the concept of Islamic economics, the state in the economy, on public finance, money, interest, prices, partnership, and profit-sharing, and offers a comparison of his ideas with those of some medieval scholars in Europe, along with a study of his influence on Islamic thinkers in later periods.

**Legal Blame** Neal Feigenson,2001 Annotation Legal Blame sheds new light on how jurors try to do justice in the wake of

accidents and reveals much about the overall psychology of jury decision making. Neal Feigenson, a professor of law, offers an illuminating framework for how jurors use their common sense, together with the law and the facts, to produce what the author refers to as total justice. This book will appeal to lawyers, expert witnesses, practicing students, and academics, as well as anyone who is interested in learning about the psychology of legal persuasion.

*Regulating Lifestyle Risks* Alberto Alemanno, Amandine Garde, 2015-01-01 This collection of essays looks at the role the European Union could and should play in promoting healthier lifestyle, in light of the moral, philosophical, legal and political challenges associated with the regulation of individual choices. By tackling the main non-communicable diseases (NCD) risk factors (tobacco consumption, harmful use of alcohol, unhealthy diets and lack of physical activity), the contributors endeavour to identify common themes and determine whether and, if so, to what extent the lessons learned in relation to each area of EU intervention could be transposed to the others. By focusing on the European Union legal order, the book highlights both the opportunities that legal instruments offer for NCD prevention and control agenda in Europe, as well as the constraints that the law imposes on policy-makers.
