An Analytical Enquiry into the Functions and Value of Proper Grammar in the Philosophy of English, with special reference to the Teaching of acceptable Written English to Children aged sixteen to eighteen

The thanks of the writer are due to Professor Austin Chukwu the Dean of humanities and social sciences of Federal University Ndufu Alike Ikwo, Ebonyi State, Nigeria who inspire him to study further on Grammar, Dr. Ben. O. Nweke the Head of Department of Languages/Linguistics/Literary Studies/Visual Arts of Federal University Ndufu Alike Ikwo, Ebonyi State, Nigeria and in particular to the Senior English Teachers and English...

Ethics of artificial intelligence

v12.n2.49072. Sheliazhenko Y (2017). &quot;Artificial Personal Autonomy and Concept of Robot Rights&quot;,. *European Journal of Law and Political Sciences*: 17–21

The ethics of artificial intelligence covers a broad range of topics within AI that are considered to have particular ethical stakes. This includes algorithmic biases, fairness, automated decision-making, accountability, privacy, and regulation. It also covers various emerging or potential future challenges such as machine ethics (how to make machines that behave ethically), lethal autonomous weapon systems, arms race dynamics, AI safety and alignment, technological unemployment, AI-enabled misinformation, how to treat certain AI systems if they have a moral status (AI welfare and rights), artificial superintelligence and existential risks.

There are significant negative health effects from smoking cigarettes such as cancer, chronic obstructive pulmonary disease (COPD), heart disease, birth defects, and other health problems relating to nearly...

Planetary boundaries

*balance to a positive (intensifying) feedback loop. From the Stockholm Memorandum  
Science indicates that we are transgressing planetary boundaries that have*

Planetary boundaries are a framework to describe limits to the impacts of human activities on the Earth system. Beyond these limits, the environment may not be able to continue to self-regulate. This would mean the Earth system would leave the period of stability of the Holocene, in which human society developed.

### Cigarette

*cylinder of tobacco rolled in thin paper for smoking. The cigarette is ignited at one end, causing it to smolder, and the resulting smoke is orally inhaled*

A cigarette is a thin cylinder of tobacco rolled in thin paper for smoking. The cigarette is ignited at one end, causing it to smolder, and the resulting smoke is orally inhaled via the opposite end. Cigarette smoking is the most common method of tobacco consumption. The term cigarette, refers to a tobacco cigarette, but the word is sometimes used to refer to other substances, such as a cannabis cigarette or a herbal cigarette. A cigarette is distinguished from a cigar by its usually smaller size, use of processed leaf, different smoking method, and paper wrapping, which is typically white.
