Lee C. Camp

Theology in the Context of World Christianity Timothy C. Tennent, 2009-05-26 Thinking more globally about the formation of theology enriches our understanding of what it means to be a Christian. It's no secret that the center of Christianity has shifted from the West to the global South and East. While the truths of the Christian faith are universal, different contexts and cultures illuminate new questions, understandings, and expressions. What does this mean for theology, as Western theologians understand it? Timothy Tennent argues that the Christian faith is culturally and theologically translatable. *Theology in the Context of World Christianity* is written to expand our ecclesiastical cartography by highlighting—within each of the major themes of systematic theology—studies that are engaging the global church, such as: Anthropology (with studies drawn from the different views of human identity between Eastern and Western cultures). Christology (with a focus on the emphases that African Christians place on the characteristics of Christ). Pneumatology (by looking at the role of the Holy Spirit in Latin American Pentecostalism). Eschatology (by focusing on how this branch of theology shapes world missions and evangelism). Each of the ten chapters examines traditional theological categories in conversation with theologians from across the globe, making this volume valuable for students, pastors, missionaries, and theologians alike. Theological reflection is active and exciting in the majority world church, and Tennent invites you to your own reflection and celebration of Christ's global church. These are perspectives that should be heard, considered, and brought into conversation with Western theologians. Global theology can make us aware of our own blind spots and biases and has much to offer toward the revitalization of Western Christianity.

Mere Discipleship Lee C. Camp, 2008-08-01 What does it mean to be a disciple of Christ today? And are Christians really prepared for the answers? In *Mere Discipleship*, Lee Camp sets forth his vision of what it means to truly follow Christ, challenging Christians to put obedience to Jesus as Lord ahead of allegiances to all earthly authorities--be they nationalistic, political, economic, or cultural. Camp clearly lays out a sound biblical framework of what disciples believe and therefore what they should do. This substantially revised and expanded second edition updates examples, adds chapter introductions and summaries, and includes new study questions.

The Church in Africa, 1450-1950 Adrian Hastings, 1996 Professor Hastings also compares the relation of Christian history to the comparable development of Islam in Africa.

The Authority of the Bible John Stott, 1974-03-01 John R. W. Stott explains why the Old and New Testaments still form the authoritative basis for Christian faith and practice.

Transforming Culture Keith E. Eitel, 1986 The author presents a working model for the development of a personal biblical ethic and then applies his model to a prominent ethical issue in Cameroon - polygamy.
