Canadian Military Pattern (CMP) trucks were mutually coherent ranges of military trucks, made in large numbers, in several classes and numerous versions, by Canada's branches of the U.S. 'Big Three' auto-makers during World War II, compliant to British Army specifications, primarily intended for use in the armies of the British Commonwealth allies, but also serving in other units of the British Empire.

Canadian factories produced some 850,000 vehicles in World War II, including some 50,000 armoured vehicles, self-propelled guns and tanks, but the greatest significance is given to the vast majority – over 800,000 – of trucks and light wheeled vehicles, produced by Ford, GM and Chrysler of Canada.

Electromod

"The new crate motor by EV West and Revolt fits just like a small-block Chevy". Hagerty. Retrieved 4 October 2022. Gnaticov, Cristian (April 25, 2020)

An electromod is a vehicle that has been restored and modified by converting its drivetrain to operate as an electric vehicle (EV). The term is a portmanteau of electrification and restomod, itself a portmanteau of restoration and modification, a process which traditionally has been associated with classic cars. Most electromods are one-off custom vehicles performed by specialty repair shops and hobbyists, but starting in the late 2010s, automobile manufacturers have been building their own electromods, sometimes with the assistance of specialty shops, to publicize their shift to battery electric powertrains and to build interest in crate engine EV drivetrain products.

The government and politics of Darien, Connecticut take place in a historically overwhelmingly Republican, upper-middle class coastal town with a Triple-A bond rating, and a tax base made up of wealthy homes, country clubs (some of the largest taxpayers), and some office buildings. Although modern Darien is largely a Manhattan suburb, its local government has more in common with traditional New England roots than New York.

As of August 1, 2006 the town Grand List (list of taxable property) amounted to \$6.33 billion.

The Cablevision Channel 79 is the town Government-access television (GATV) cable TV channel for town residents to see meetings of local government boards and commissions.
